eduroam setup

Android via easyroam

Secure Wi-Fi access at Hochschule Rhein-Waal in a few simple steps.

Before you start

Have internet access (mobile data or use *Freifunk*) and remove old eduroam profiles first.

If setup fails

Remove old eduroam profiles; reinstall the easyroam app. Try again and if error persists, visit Student IT Support.

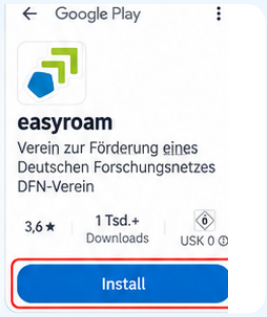
1 Open Google Play

Scan the QR code to open the official easyroam app.

Google Play - easyroam

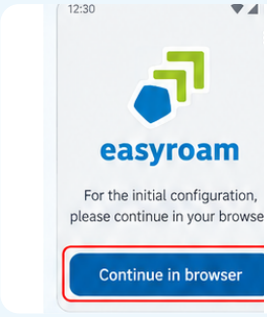
2 Install easyroam

Tap Install in Google Play.



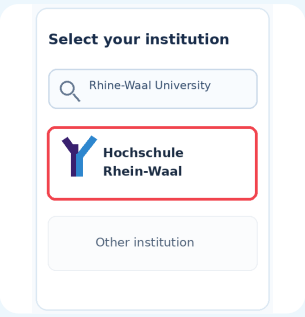
3 Continue in browser

Open easyroam and select Continue in browser.



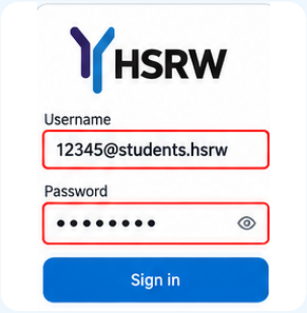
4 Choose your institution

Search Rhine-Waal University or Hochschule Rhein-Waal.



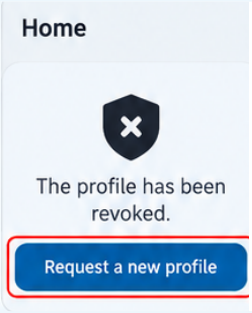
5 Sign in

Use your HSRW account, e.g. 12345@students.hsrw, and password.



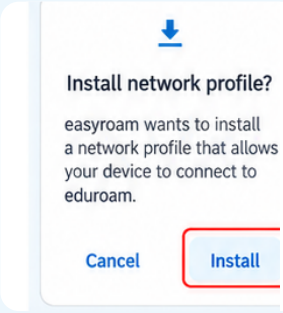
6 Request a new profile

Tap Request a new profile, even if the old one was revoked.



7 Allow installation

Accept the Wi-Fi configuration prompt to install the profile.



8 Check Wi-Fi

You should now be connected to the eduroam Wi-Fi network.

eduroam setup

iPhone / iPad via easyroam

Secure Wi-Fi access at Hochschule Rhein-Waal in a few simple steps.

Before you start

Have internet access (mobile data or use *Freifunk*) and remove old eduroam profiles first.

If setup fails

Remove old eduroam profiles; reinstall the easyroam app. Try again and if error persists, visit Student IT Support.

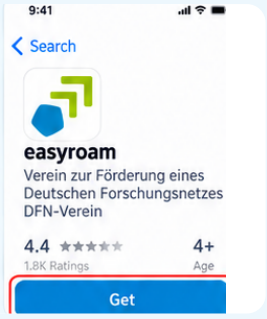
1 Open the App Store

Scan the QR code to open the official easyroam app.

App Store - easyroam

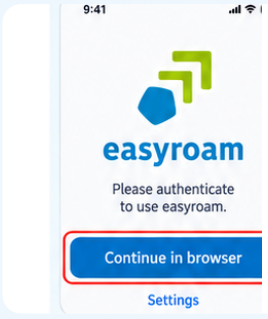
2 Install easyroam

Tap Get in the App Store.



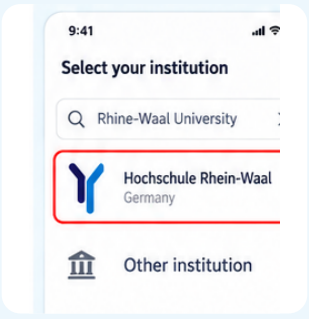
3 Continue in browser

Open easyroam and select Continue in browser.



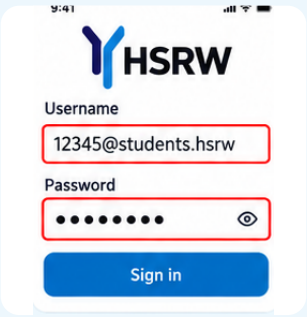
4 Choose your institution

Search Rhine-Waal University or Hochschule Rhein-Waal.



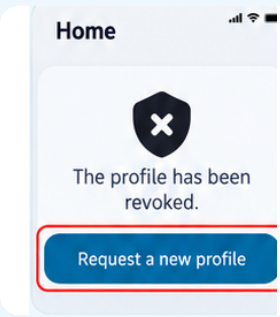
5 Sign in

Use your HSRW account, e.g. 12345@students.hsrw, and password.



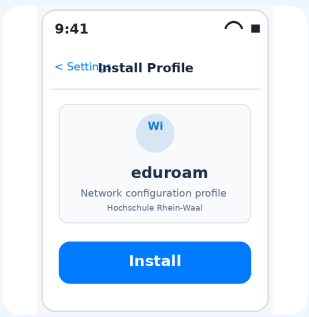
6 Request a new profile

In easyroam, tap Request a new profile.



7 Install the profile

On your iPhone/iPad, approve the eduroam profile and tap Install or Allow.



8 Check Wi-Fi

In Settings > Wi-Fi, check that eduroam is connected.

eduroam setup

Windows via easyroam

Secure Wi-Fi access at Hochschule Rhein-Waal in a few simple steps.

Before you start

Have internet access (mobile data or use *Freifunk*) and remove old eduroam profiles first.

If setup fails

Remove old eduroam profiles; reinstall the easyroam app. Try again and if error persists, visit Student IT Support.

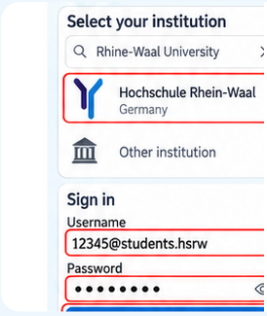
1 Open easyroam.de

Scan the QR code or enter easyroam.de in your browser.

easyroam.de

2 Sign in on the website

Choose Rhine-Waal University or Hochschule Rhein-Waal; sign in with your HSRW account.

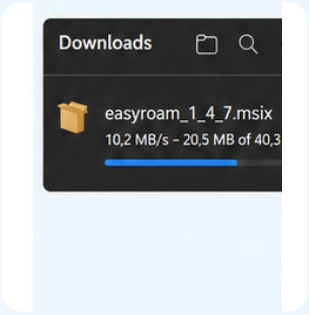


3 Download for Windows

Once signed in, download the Windows app from easyroam.de.

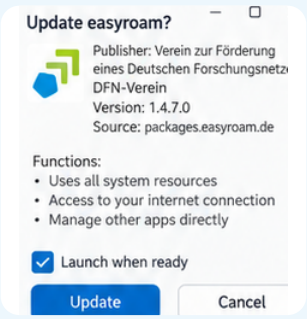
4 Open the download

Run the downloaded .msix file from Downloads.



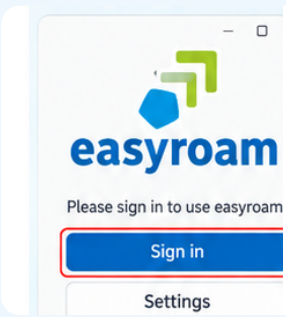
5 Install or update

Select Install (or Update if easyroam is already installed).



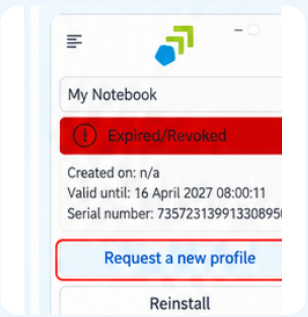
6 Sign in again

Open easyroam and sign in again from the app.



7 Request a new profile

Choose Request a new profile to renew your access.



8 Check Wi-Fi

Confirm that Windows connects to eduroam.
