

MoU signed between BUET and Rhine-Waal University of Applied Sciences, Germany

Bangladesh University of Engineering and Technology (BUET), Bangladesh and Rhine Waal University of Applied Sciences, Germany signed a Memorandum of Understanding (MoU) on 19th July 2010. The goal of the MoU is to extend academic cooperation between two universities by conducting exchange programs of faculty members and students. The exchange of students of higher semester for internship is desired, means the students will join lectures and practical training in laboratories, will participate in examination in order to gain credit points if he/she will stay at least one semester. The exchange of faculty members will be desired in all areas of subjects of both institutions if there is an offer in the course of study or in the research area. The MoU ceremony was held at Vice-Chancellor's Office, BUET in presence of faculty members of different academic departments. Prof. Dr. A. M. M. Safiullah, Vice-Chancellor of BUET and Prof. Dr. Marie-Louise Klotz, President of Rhine Waal University signed the MoU on behalf of BUET and Rhine Waal University respectively. Prof. Dr. A. K. M. Masud, Department of IPE is the contact person for this exchange program.
