About credit-bearing language courses

Background

With the enactment of the Strategic Development Plan 2017, Rhine-Waal University of Applied Sciences made a collective decision to embed foreign language courses in the curricula of its degree programmes. In the years since, numerous degree programmes have undergone reaccreditation processes and implemented this strategic decision for their students, giving many students of Rhine-Waal University of Applied Sciences the opportunity to complete a qualifying language course and earn credits for their achievement.

Eligibility

It is important to note that students are only eligible to earn credits for a language course if their degree programme allows it. Thus, the first step for students is to refer to their examination regulations, in particular the curricular overview in the annex. Here it will be plainly stated whether language courses are included in the elective catalogue or not, and how many credits can be obtained for them (usually 5). The latest versions of examination regulations can be found here:

- [Faculty of Technology and Bionics](#)
- [Faculty of Life Sciences](#)
- [Faculty of Society and Economics](#)
- [Faculty of Communication and Environment](#)

In addition, students must also register for the elective module in HIS or, in some cases, obtain special permission from their faculty's Examination Board (*Prüfungsausschuss*). Please contact them for questions or more information.

Credit-bearing language courses

Only the language courses listed below are offered for credits, as they comply with specific ECTS workload requirements (1 credit = **25-30** hours of study, thus 5 CP = 150 hours). We also offer non-credit-bearing courses in other languages. The course timetables posted in Moodle will indicate whether a specific course is offered for credit.

Obtaining credits

The first step is registering for a course in Moodle during an official registration window. Our registration area is located [here](#). Please indicate to your instructor that you intend to earn credits for the course when asked.

Students pursuing credit must complete all mandatory requirements for their course (see below for details). After a language course ends, the Languages Department collects all documentation from the instructor and verifies that credit-seeking students have completed all mandatory requirements. A list of these students is then created and sent to Examination Services, which is responsible for final verification of eligibility and entering the results into HIS.

Requesting a certificate

After completing a language course, you can request a certificate at any time using our [online form](#).

Continuing your learning progression (non-credit seeking students)

It takes many language courses to reach conversational proficiency, which is why non-credit seeking students are also welcome in our courses. In this case, the additional credit requirements are not mandatory, but students can choose to do them if they wish, as they will provide useful additional practice.

Questions?

For general enquiries, please contact languages@hochschule-rhein-waal.de.

For credit-related enquiries, please contact Examination Services at pruefungsservice@hochschule-rhein-waal.de.

Grading scale for language courses

Percentage	Grade	Assessment
100-91	1	Very good
90-81	2	Good
80-71	3	Satisfactory
70-60	4	Sufficient
59-0	5	Fail

Please refer to your [examination regulations](#) to determine whether the grade from your language course will count towards your GPA. If this is not the case, the course will be treated as an ungraded pass/fail.
