

BIOLOGICAL RESOURCES, M. Sc.

COURSE SCHEDULE OF FULL TIME STUDY PROGRAMME

Summer Term

- Simulation of Biological Systems
- Animal Ecology and Ecosystem Services
- Soil Biological Resources
- Closing Cycles: Use and Reduction of By-products
- Elective Module Summer Term
- Research Project
- Lecture Series Biological Resources

Elective Modules Summer Term:

- Use of Diversity in a Changing World
- Innovation Management
- Quality and Sustainability in Biological Resources Value Chains
- Animals in Bioeconomy
- Module from any Master Study Course at Rhine-Waal University of Applied Sciences

Winter Term

- Environmental Valuation and Economic Impact Assessment
- Underutilized Plant Resources
- Processing Biological Resources
- Sustainability Assessment and Life Cycle Assessment
- Lecture Series Biological Resources

Elective Modules Winter Term:

- Environmental System Analysis
- Entrepreneurship and Business Planning
- Analytics of Renewable Resources
- Module from any Master Study Course at Rhine-Waal University of Applied Sciences

Master Thesis and Colloquium
