

Strong and successful – together!

Dear students,

you want to set off a project and are now looking for a team, a place to work etc.?

You want to run your own workshop?

We would love to support you!
The student representatives council already helped establish some amazing projects and we are looking for more!

Already a tradition:
Each Winter Term is ended by an extraordinary Christmas Ball, which is very popular among the students.

System Overview for Students:
An interdisciplinary student project came up with this informative clip for beginners at our university. You can check it out on YouTube.

Fachschaftsrat
Kommunikation und Umwelt

Find us on Facebook!

In addition to supporting your projects, we would like to help you with any kind of problems or questions:

Are there any troubles with your teachers or professors?

Do you feel like your grading has been unfair and you don't know who to turn to?

Are you thinking about bailing out, or about changing your study path and need someone to listen to you?

Don't know your way about the (university) administration or who to address in rather bueraucratic matters?

Do you disagree with the modular handbook to one of your study paths?

You found the right place! We are going to try and help you find a solution to any kind of problem. Feel free to talk to us.

We are also in the middle of putting together a collection of exams from the past. Use it to gain an early insight and be even better prepared for your next stage of exams.

Our goal is to improve student life in Kamp-Lintfort and to become one great intercultural community that will learn from each other; in short: we want to become strong and successful together.

We would like to see many more new projects among our campus, and that depends on your own involvement. You are getting the opportunity to bring in your ideas and your creativity to actually make a change.

We are looking forward to hear from you!
