

Examination Regulations

for

Agribusiness B.A.

at Rhine-Waal University of Applied Sciences

Dated 22 January 2013

*Please note: this English translation is provided for information purposes only.
Only the German version published in the Official Notices of Rhine-Waal University of Applied Sciences is legally binding.*

*These examination regulations apply to students who first enrolled in Agribusiness B.A.
before winter semester 2014-2015.*

In accordance with Section 2 (4) sentence 1 and Section 64 (1) of the Higher Education Act of North Rhine-Westphalia [Hochschulgesetz – HG NRW], in the amended form produced by the Greater Liberty for Higher Education Institutions Act [Hochschulfreiheitsgesetz] of 31 October 2006 (Law and Regulations Gazette of NRW – GV.NRW. 2006, p. 474), last amended by Article 1 of the Act amending the Higher Education Act and the Art Colleges Act [Gesetz zur Änderung des Hochschulgesetzes und des Kunsthochschulgesetzes] of 18 December 2012 (GV.NRW. 2012, p. 672) and by Section 2 (4) of the Universities of Applied Sciences Establishing Act of 21 April 2009 [Fachhochschuleerrichtungsgesetz 2009] (GV.NRW. 2009, p. 255) and by the General Examination Regulations for Bachelor's Programmes (RPO) of Rhine-Waal University of Applied Sciences of 22 October 2012 (published in the Official Notices on 29 October 2012), the Founding Dean of the Faculty of Life Sciences of Rhine-Waal University of Applied Sciences has issued the following examination regulations:

Contents

- Section 1 Scope of application
- Section 2 Aims and objectives; purpose of examination; degree awarded
- Section 3 Entry requirements
- Section 4 Preparatory internship
- Section 5 Programme structure; volume of studies; progression of studies
- Section 6 Scope of examinations
- Section 7 Scope and form of the bachelor's thesis
- Section 8 Admission to the bachelor's thesis and colloquium
- Section 9 Credit points for the bachelor's thesis and colloquium
- Section 10 Conferment of the bachelor's degree
- Section 11 Entry into force

Annex Recommended study and examination schedule for Agribusiness B.A.

Section 1

Scope of application

These examination regulations shall apply to the English-taught bachelor's degree programme **Agribusiness** of the Faculty of Life Sciences of Rhine-Waal University of Applied Sciences, in conjunction with the General Examination Regulations for Bachelor's Programmes [Rahmenprüfungsordnung; hereinafter "RPO"] of Rhine-Waal University of Applied Sciences. These examination regulations govern the standard seven-semester mode of study (full-time study), the nine-semester dual-vocational mode of study (dual study), and the nine-semester part-time mode of study for working professionals [berufsbegleitendes Studium].

Section 2

Aims and objectives; purpose of examination; degree awarded

(1) The bachelor's examination concludes the degree programme and constitutes a first academic and scientific qualification towards a career. The general aims and objectives for bachelor's programmes are outlined in Section 3 RPO. This degree programme is designed to produce graduates who can apply complex methods from numerous fields – in particular agriculture, agro-economics, economics, social science and natural science – and who can use these methods to develop practical, interdisciplinary solutions. A strong command of the English language is key to achieving success in this degree programme, as it provides the essential basis for this programme's continuous goal of broadening and deepening students' technical language and communication skills.

(2) The academic degree "Bachelor of Arts", abbreviated as "B.A.", shall be awarded for the successful completion of the bachelor's examination.

Section 3

Entry requirements

(1) The general entry requirements for bachelor's degree programmes are outlined in Section 4 RPO.

(2) A "related or comparable programme of study" within the meaning of Section 4 (6) RPO is defined as any undergraduate (bachelor's or German 'Diplom') degree programme at a university or university of applied sciences in Germany if that programme's content predominately falls under the umbrella of agricultural science and economics.

(3) Sufficient proficiency in English can be demonstrated by submitting a valid and recognised language certificate equivalent to CEFR level B2 (Common European Framework of Reference for Languages). Generally, the following language tests and scores are accepted as valid proof:

- IELTS: 6.0 or better
- TOEFL (iBT): minimum 80
- TOEFL (PBT): minimum 550
- TOEFL (CBT): minimum 213

(4) Exempted from this language certificate requirement are applicants who have acquired English language abilities equivalent to level B2 over the course of earning their university entrance qualification [Hochschulreife] at a secondary school in Germany. This is considered the case when an applicant has successfully completed at least seven years of English at a German secondary school and earned a final cumulative mark of at least “sufficient” (4.0 or better) for the subject.

Section 4 Preparatory internship

Students in this degree programme are required to complete an eight-week preparatory internship (within the meaning of Section 4 (3) RPO) at an extramural company, public authority, organisation (for-profit or nonprofit) or other institution and in a context relevant to the curriculum. The internship should familiarise the student with questions and matters relating to agricultural science and engineering, as well as business administration and organisation. The internship can also extend to manufacturing/production, the service sector or the commercial/trade sector.

Section 5 Programme structure; volume of studies; progression of studies

(1) This degree programme has a total volume of study of 121 credit hours [Semesterwochenstunden – SWS].

(2) In accordance with the framework outlined in Section 6 (5) RPO, the modules of this programme comprise a total sum of 210 credit points (hereinafter “CP”).

(3) Before commencing the dual study programme, a vocational training period of 14.5 months must be completed through a company and a vocational school in Germany. The dual study programme begins after this period. In the initial phase of study, the student attends lectures at the University full-time. A second vocational training period then commences in the third semester and eventually concludes with a vocational qualification examination. Both the vocational training position and the company providing the training must be relevant to the scientific discipline studied in the degree programme. The Faculty of Life Sciences shall be responsible for assessing the relevance of a proposed training position or company. The vocational training portion of the dual study programme generally concludes by the start of the fifth semester with a comprehensive examination, in German, conducted by the respective German Chamber of Agriculture. The student studies part-time in the fourth and fifth semesters, attending four days of lectures at the University and one day at the vocational school per week. In the sixth semester the student is required to complete a work placement or an exchange semester at a university abroad. Contrary to Section 5 (1) sentence 2 RPO, the dual mode of study for Agribusiness has a standard duration of seven semesters.

(4) The part-time mode of study [berufsbegleitendes Studium] allows working individuals to continue their profession while studying on a part-time basis. In this mode of study, the regular content of the first two semesters is taught over the course of four semesters instead. During this time, the part-time student’s work week is divided into two days of study at the University and three days at their place of employment.

Non-binding English translation – only the German version published in the Official Notices of Rhine-Waal University of Applied Sciences is legally valid.

(5) Additional information about the structure and progression of the programme, as well as about the type, form and scope of modules, can be found in the study and examination schedule in the annex of these examination regulations. For details about a module's qualification aims, content and most commonly offered mode of examination, please refer to the descriptions in the module guide, which is available in the dean's office for all students and staff to review.

Section 6 Scope of examinations

(1) The time allotted to students for a written examination is based on the CP value of the respective course unit(s). As a general rule, 60 minutes shall be allotted for every two CP.

(2) An oral examination generally lasts at least 30 minutes, but no more than 45 minutes.

(3) The text portion of an assignment, term paper or project should not exceed 30 DIN A4 pages in length (not including annexes).

Section 7 Scope and form of the bachelor's thesis

(1) As a rule, the text portion of the bachelor's thesis should be between 40 and 100 DIN A4 pages in length (not including annexes). The thesis may also be supplemented with other media, provided they are appropriate and helpful for the documentation of the thesis in accordance with the assigned task. In this case the text portion of the thesis (not including annexes) may have less pages than the minimum requirement defined in sentence 1.

(2) The bachelor's thesis can also be admitted as group work if each student's individual contribution fulfils the requirements in Section 23 (1) RPO and is clearly distinguishable and thus assessable due to clear delimitation by section, page numbers or other criteria that ensure distinct identification of each student's separate contribution.

Section 8 Admission to the bachelor's thesis and colloquium

(1) In conjunction with the general prerequisites for admission to the bachelor's thesis (Section 24 (1) RPO), students must show that they have acquired 175 CP.

(2) In conjunction with the general prerequisites for admission to the colloquium (Section 27 (2) RPO), candidates must show that they have acquired 202 CP.

Section 9 Credit points for the bachelor's thesis and colloquium

(1) Twelve CP shall be awarded for successfully passing the bachelor's thesis.

(2) Eight CP shall be awarded for successfully passing the colloquium.

Section 10
Conferment of the bachelor's degree

The bachelor's degree specified in Section 2 (2) is officially conferred with the issuing of the bachelor's degree certificate (Section 30 (1) RPO).

Section 11
Entry into force

These examination regulations shall enter into force on the day after their publication in the Official Notices [Amtliche Bekanntmachungen] of Rhine-Waal University of Applied Sciences. These regulations apply to students who first enrolled in the Agribusiness B.A. programme of the Faculty of Life Sciences of Rhine-Waal University of Applied Sciences in or after winter semester 2011-2012.
