Section 1

Scope of application

These examination regulations shall apply to the English-taught bachelor's degree programme International Business and Social Sciences of the Faculty of Society and Economics of Rhine-Waal University of Applied Sciences, in conjunction with the General Examination Regulations for Bachelor's Programmes [Rahmenprüfungsordnung; hereinafter "RPO"] of Rhine-Waal University of Applied Sciences. These examination regulations govern the standard seven-semester mode of study (full-time study), the nine-semester dual-vocational mode of study (dual study), and the nine-semester part-time mode of study for working professionals (part-time study).

Section 2

Aims and objectives; purpose of examination; degree awarded

(1) The bachelor's examination concludes the degree programme, constitutes a first academic and scientific qualification towards a career, and entitles the holder to continue their studies in a master's degree programme. The aims and objectives for this bachelor's programme are outlined in Section 3 RPO. A strong command of the English language is key to achieving success in this degree programme, as it provides the essential basis for this programme's continuous goal of broadening and deepening students' technical language and communication skills.

(2) The academic degree "Bachelor of Arts", abbreviated as "B.A.", shall be awarded for successfully completing the bachelor's examination.

Section 3

Entry requirements

(1) The general entry requirements for bachelor's degree programmes are outlined in Section 4 RPO.

(2) A "related or comparable programme of study" within the meaning of Section 4 (6) RPO is defined as any undergraduate (bachelor's or German 'Diplom') degree programme at a university or university of applied sciences in Germany if that programme's content predominately falls under the mantle of economics.

(3) Sufficient proficiency in English can be demonstrated by submitting a valid and recognised language certificate equivalent to CEFR level B2 (Common European Framework of Reference for Languages). Generally, the following language tests and scores are accepted as valid proof:

- IELTS: 6.0 or better
- TOEFL (internet based test): minimum 80
- TOEFL (paper based test): minimum 550
- TOEFL (computer based test): minimum 213

(4) Exempted from this language certificate requirement are applicants who have acquired English language proficiency equivalent to level B2 over the course of earning their university entrance qualification [Hochschulreife] at a secondary school in Germany. This is

considered the case when an applicant has successfully completed at least seven years of English at a German secondary school and earned a final cumulative mark of at least “sufficient” (4.0 or better) for the subject.

Section 4 Preparatory internship

Students in this degree programme are required to complete an eight-week preparatory internship (within the meaning of Section 4 (3) RPO) at an extramural company, public authority or organisation and in a context relevant to the curriculum. The internship should familiarise the student with questions and matters relating to economics and social science.

Section 5 Programme structure; volume of studies; progression of studies

(1) This degree programme has a total volume of study of 124 credit hours [Semesterwochenstunden – SWS].

(2) In accordance with the framework outlined in Section 6 (5) RPO, the modules of this programme comprise a total sum of 210 credit points (hereinafter “CP”).

(3) Modules and examinations are conducted in the degree programme’s official language of instruction (English).

(4) An integral part of the dual study programme is on-the-job vocational training that occurs over the first four semesters of study and is subject to contractual agreement between the student and the company providing the training. Both the vocational training position and the company must have a clear relevance to the student’s chosen field of study. The Faculty of Society and Economics shall be responsible for assessing the relevance of a proposed dual study contract. In the ‘dual phase’ of study, the regular content of the first two semesters is taught over the course of four semesters instead. During this phase, the dual study student spends two weekdays studying at the university and three weekdays receiving vocational training at the company. The dual phase concludes with a comprehensive examination, in German, conducted by the respective German Chamber of Industry and Commerce before the start of the fifth semester.

(5) The part-time mode of study allows working individuals to study on a part-time basis parallel to their career. In this mode of study, the regular content of the first two semesters is taught over the course of four semesters instead. During this time, the part-time student’s work week is divided into two days of study at the university and three days at their place of employment.

(6) Additional information about the structure and progression of the programme, as well as about the type, form and scope of modules can be found in the study and examination schedule in the annex of these examination regulations. For details about a module’s qualification aims, content and most commonly offered modes of examination, please refer to the descriptions in the module guide, which is available in the dean’s office for all students and staff to review.

Section 6

Scope of examinations

- (1) The time allotted to students for a written examination is based on the CP value of the respective course unit(s) and generally will not exceed 120 minutes. As a general rule, 20 to 30 minutes shall be allotted for every one CP.
- (2) An oral examination generally lasts at least 15 minutes, but no more than 30 minutes per student.
- (3) The text portion of an assignment, term paper or project should not exceed 30 DIN A4 pages in length (not including annexes).

Section 7

Scope and form of the bachelor's thesis

- (1) As a rule, the text portion of the bachelor's thesis should be between 40 and 60 DIN A4 pages in length (not including annexes). The thesis may also be supplemented with other media as well, provided they are appropriate and helpful tools for documenting the material in accordance with the assigned task. In this case the text portion of the thesis (not including annexes) may have less pages than the minimum requirement defined in sentence 1.
- (2) The bachelor's thesis can also be admitted as group work if each student's individual contribution fulfils the requirements in Section 23 (1) RPO and is clearly distinguishable and thus assessable due to clear delimitation by section, page numbers or other criteria that ensure distinct identification of each student's separate contribution.

Section 8

Admission to the bachelor's thesis and colloquium

- (1) In conjunction with the general prerequisites for admission to the bachelor's thesis (Section 24 (1) RPO), students must show that they have acquired 175 CP.
- (2) In conjunction with the general prerequisites for admission to the colloquium (Section 27 (2) RPO), candidates must show that they have acquired 207 CP.

Section 9

Credit points for the bachelor's thesis and colloquium

- (1) Twelve CP shall be awarded for successfully passing the bachelor's thesis.
- (2) Three CP shall be awarded for successfully passing the colloquium.

Section 10

Conferment of the bachelor's degree

The bachelor's degree specified in Section 2 (2) is officially conferred with the issuing of the bachelor's degree certificate (Section 30 (1) RPO).

Section 11
Entry into force and transitional provisions

These examination regulations shall enter into force on the day after their publication in the Official Notices [Amtliche Bekanntmachungen] of Rhine-Waal University of Applied Sciences. Students who commenced their studies before said date may complete more than 6 CP worth of elective modules offered by other degree programmes at Rhine-Waal University of Applied Sciences, subject to the approval of the Examination Board.

Note: These examination regulations entered into force in their present form on 04 September 2013.
