

International Networking Day for HSRW staff

Erasmus+ staff mobility for training or teaching

Maria Alarcos-Quintanilla and Anne-Carolin Ahrberg, International Center

For HSRW-staff from all faculties, administration and departments. All staff members of Rhine-Waal University can apply for Erasmus+. Find out more about the application procedure and conditions. Working language is English. Maria Alarcos-Quintanilla also answers your questions at the International Center info desk afterwards.

Students and staff meet international partner universities and friends

You will have the opportunity to make personal contacts with colleagues from partner universities and international contacts or to figure out options for further collaboration. You can find our partners at info desks sorted by country. There will also be info desks: From International Center about exchanges, from DAAD about Erasmus+ strategic partnerships and from the *GameLet* project with HSRW colleagues, who will share their experiences with Erasmus+ strategic partnerships. Working language is English as well as the native languages of our guests, e.g. Spanish, French, Finnish, Czech, German etc.

Strategic Partnerships – an innovative way of advancing the internationalization of your university

Beate Körner, Head of Unit Erasmus+ Partnerships and Cooperation Projects, NA DAAD

Strategic Partnerships is an Erasmus+ funding line, which can be used for innovative projects initiated by any department or working unit of a Higher Educational Institute, if they involve international partners. Find out more about this funding line and the application process, have a look at examples for successful cooperation projects and how they can contribute to the internationalisation of a university. This presentation especially addresses international guests and colleagues of Rhine-Waal University. There will also be room for discussions and Beate Körner will be available for individual questions afterwards at the info desk "Strategic Partnerships".

Fostering international competences and employability: Blended mobility

Nuno Escudeiro, Polytechnic Institute of Porto, European Association of Erasmus Coordinators, Project coordinator "Blended-AIM"

The Blended-AIM project connects physical with virtual international mobility and gives students the opportunity to collaborate in international teams in order to solve real tasks together given to them by companies. This presentation shows, how the Blended-AIM project, which actually is a Strategic Partnership Project, fosters the students' employability.

Celebrating international exchanges and partnerships

After talking about international exchanges and partnerships we invite you to relax and celebrate together with HSRW colleagues and students - and our international partners and friends, who greatly contributed to the international profile of Rhine-Waal University and hopefully will do so in the future. After an opening address by the interim president Eberhard Menzel, you are invited to enjoy international food and drinks on our terrace while listening to Biscuit Club.
