EPITOME AGRO & FISHERIES

A model eco friendly farm

Production

We will produce crops and there will be cattle farm, poultry farm & fisheries

No use of chemical fertilizer, insecticides and pesticides. Rather we use only organic ones

Strategies

Motivation

Inorganic food is health hazardous and also creates environmental ecological crisis. So, focusing on organic food is important

When we change the water of fisheries project, it will be used in Irrigation of crops. Chicken & cow dungs will be used as fertilizers

Waste Utilization

Financing

Own capital, local and foreign donations, Bank loans

GOALS

To provide healthy food and create food sovereignty

CONSERVATION INSTEAD OF DEFORESTATION

WHAT WE DO

presentus

Your collaboration partner for your digital appearance

Your association, NGO, NPO needs a modern website/digital appearance, but you would like to focus on your work rather than spending your time with it?

Yes

Great, so it is time to introduce presentus!

No, we prefer to spend hours of inefficient work and invest a lot of time and money for questionable results.

presentus is a social enterprise realizing the digital and technical demands of associations, NPOs and NGOs.

We facilitate cooperation by developing a global network of organizations which are engaging in making the world a better place.

The team behind presentus

- small employed team (depending on revenue)
- volunteers

What we offer?

- website development
- networking opportunities
- corporate design
- fast realization of requests
- to be a reliable partner
- pool of knowledge
- setting up email accounts

Financing

- 100% transparent
- monthly membership fee
- monthly donations

We donate 25% of our profit to social/environmental projects – a win-win situation for everyone.
