Annex	

Section 1

Scope

These examination regulations apply to the degree programme Agribusiness B.A., which is offered in English by the Faculty of Life Sciences of Rhine-Waal University of Applied Sciences, and are valid in conjunction with the General Examination Regulations for Bachelor's and Master's Degree Programmes ("RPO") of Rhine-Waal University of Applied Sciences. They govern the standard, seven-semester mode of study (full-time), the dual-vocational, eight-semester mode of study (dual) and the nine-semester mode of study for working professionals (part-time).

Section 2

Academic objectives; purpose of examination; degree awarded

(1) This degree programme concludes with the bachelor's examination, which forms the basis for the professionally qualifying nature of the degree. Academic aims and objectives are outlined in Section 3 RPO. This degree programme aims to empower students to apply agricultural, agro-economic, social scientific and natural scientific methodologies as well as develop practical and feasible solutions that are not restricted to traditional disciplinary boundaries. A strong command of the English language is key to achieving success in this degree programme, as it provides the essential basis for the continuous goal of expanding and honing students' technical language and communication skills.

(2) The academic degree "Bachelor of Arts", abbreviated as "B.A.", is awarded for successfully completing the bachelor's examination.

Section 3

Admission requirements

(1) General admission requirements are defined in Section 4 RPO.

(2) Applicants are ineligible for admission if they failed the final attempt at a mandatory examination in a previous degree programme that was very similar content-wise to this degree programme and offered by a university subject to German Basic Law.

(3) The requirements for proof of English language proficiency are set forth in Section 4a (6a) sentence 1 RPO.

(4) Applicants may request an exemption from the proof of proficiency requirement defined in subsection (3). These requests are justified, for example, for persons applying on the basis of a professionally-qualifying undergraduate degree that was taught in English and in a majority English-speaking country as defined in Annex 1. The Examination Board is responsible for deciding on these requests.

Section 4

Basic internship

In accordance with Section 4 (3) RPO, students in this degree programme are required to complete an eight-week basic internship outside of Rhine-Waal University of Applied Sciences at an external company, public authority or other for-profit or not-for-profit organisation in a

field relevant to the curriculum that familiarises them with questions and topics in the fields of agricultural sciences and engineering as well as business organisation and economics. The internship may also be conducted in manufacturing, at a service provider or a retail business.

Section 5

Programme structure; volume of instruction hours; progression of studies

This degree programme has a total volume of instruction of 133 contact hours (SWS).

Participation in curricular excursions, language courses, practical training courses or tutorials is mandatory. These mandatory courses are marked with an asterisk (*) in the study and examination plan for the degree programme.

(2a) Mandatory courses have an attendance requirement of 75%. Successful completion is confirmed by certificate/attestation as defined by Section 20 (2) RPO. If a student is unable to fulfil the attendance requirement due to a long period of absence for justified reasons (for example illness, pregnancy or nursing leave), the responsible instructor can decide, upon request, if and how the student can make up for the period of absence and still pass the course. Section 16 (4) RPO applies with regard to compensatory arrangements.

In accordance with the European Credit Transfer Accumulation System (ECTS), one credit point (CP) in this degree programme is equivalent to a workload of 30 hours. The modules of this degree programme comprise a total sum of 210 CP in accordance with Section 6 (5) RPO.

Before commencing with the dual version of this degree programme, students must complete a 14.5 month period of vocational training in a relevant company and in a German vocational college. A period of two semesters of full-time study at Rhine-Waal University of Applied Sciences follows this initial phase. During this period, the student will attend courses at the University. A second vocational training phase will commence in the third semester of study and conclude with a final vocational qualification examination. Both the vocational training position and the training company must be in the same field as this degree programme. The faculty is responsible for judging the relevance of a proposed dual study arrangement. The vocational training portion of the degree programme generally concludes before the start of the fifth semester of study with an examination at the Chamber of Agriculture. In the fourth and fifth semesters, students in the dual version of the degree programme will attend a mix of courses at both Rhine-Waal University of Applied Sciences and a vocational college. The sixth semester is reserved for an internship or semester abroad. The standard period of study for the dual degree programme is eight semesters.

The part-time version of this degree programme allows working professionals to pursue a degree alongside their career. The standard period of study for the part-time degree programme is nine semesters.

Additional information about the breakdown of this degree programme and the type, form and scope of modules can be found in the study and examination plan at the end of this document. Additional information about learning outcomes, qualification aims, contents and forms of examination is available in the corresponding module guide, which is available for viewing in the faculty's central office.

Examinations take place over the course of study. Registration for examinations requires proof of completion of any prerequisite modules / module examinations, insofar as prerequisites for

a module and/or for lectures offered as part of a module are given in the annex of these regulations.

In addition to the general prerequisites for admission to the internship or semester abroad (Section 21 (2) RPO), students in this degree programme must have successfully completed all modules and module examinations scheduled in the first year of study.

Section 6 Scope of examinations

(1) The time allotted for a written examination depends on the number of contact hours (SWS) for the corresponding lecture. As a rule, 60 minutes are allotted for every two contact hours (SWS).

(2) An oral examination generally lasts between 30 and 45 minutes.

(3) The text portion of an assignment, term paper or project should not exceed 30 DIN A4 pages.

Section 7 Scope and form of the thesis

(1) The text portion of the thesis should generally be between 40 and 100 pages (DIN A4) in length. The thesis may also be supplemented with other media as well, provided their use as additional documentation is appropriate and helpful within the context of the assigned task. In this case, the length of the text portion of the thesis may deviate from the aforementioned minimum requirement.

(2) The thesis can also be submitted as group work if each student's individual contribution fulfils the requirements set forth in Section 23 (1) RPO and is clearly distinguishable (and thus assessable) thanks to clear and distinct delimitation by sections, page numbers or other criteria.

(3) Contrary to Section 25 (2) RPO, the allotted period for completing the thesis for part-time students is six months.

Section 8
Admission to the thesis and colloquium

(1) In addition to the thesis admission requirements set forth in Section 24 (1) RPO, students must have obtained at least 180 credits.

(2) In addition to the colloquium admission requirements set forth in Section 27 (2) RPO, candidates must have obtained 207 CP.

Section 9
Credit values for the thesis and colloquium

(1) Twelve credits are awarded for passing the undergraduate thesis.

(2) Three credits are awarded for passing the colloquium.

Section 10
Awarding of the bachelor's degree

The bachelor's degree specified in Section 2 (2) is officially conferred upon issuing of the bachelor's degree certificate defined in Section 30 (1) RPO.

Section 11
Entry into force / transitional provisions

(1) These examination regulations will enter into force on the day after publication in the Official Notices (*Amtliche Bekanntmachungen*) of Rhine-Waal University of Applied Sciences. They apply to students who first enrolled in Agribusiness B.A. At the Faculty of Life Sciences of Rhine-Waal University of Applied Sciences in or after winter semester 2019-20.

(2) Students who first enrolled in Agribusiness B.A. before winter semester 2019-20 may continue their studies according to the examination regulations dated 9 July 2014 (Official Notices 26/2014) until 28 February 2026 at the latest. Accordingly, the examination regulations dated 09/07/2014 (Official Notices 26/2014) shall expire on 1 March 2026.

(3) Alternatively, students currently studying under the examination regulations dated 9 July 2014 (Official Notice 26/2014) may submit a written request to the Examination Board to switch to the examination regulations defined in this document. The Examination Board is responsible for all credit recognition decisions for modules and examinations completed under previous examination regulations.

Note: *These examination regulations entered into force on 1 March 2023.*
